

Montgomery County *Department of Transportation*

Bethesda Unified Mobility Program (BUMP)

Western Montgomery County
Citizens Advisory Board (WMCCAB)
June 17, 2019

What is the BUMP?

- A fun acronym
- Part of the SSP for Red Policy Areas
- Included in the Bethesda Downtown Plan
- Modeled after the White Oak LATIP

<https://www.montgomerycountymd.gov/dot-dir/Resources/Files/LATR-WhitePaper.pdf>

But what *IS* it?

$\frac{\text{Cost (\$ \$ \$)}}{\text{Traffic Generated (Trips)}}$ $\text{Fee (\$/trip)}$
--

White Oak →
$$\frac{\$101,800,000}{20,324 \text{ trips}}$$

$$\$5010 / \text{trip}$$

- Identification of necessary transportation infrastructure for...
 - SSP adequacy
 - A successful master plan
- Estimating costs for this infrastructure
- Allocating these costs equitably across future development
- A per-unit fee paid by new development
- Handled like Impact Tax
- Stays local; goes into a lockbox specifically for that UMP

Why?

- **Coordination**
- Equity
- Transparency
- Time & Fiscal Savings

Coordination

The scattered nature of development in an area can result in a number of uncoordinated transportation projects being pursued by various developers.

The UMP performs a unified analysis to identify all treatments required across the policy area. Implementation is at the behest of public agencies, coordinated by Council-appropriated funds and each project managed by either County or State transportation agencies.

Why?

- Coordination
- **Equity**
- Transparency
- Time & Fiscal Savings

Equity

Intersections tend to have some degree of excess capacity before they are considered to be failing and in need of treatment. The first developers to proceed with project approvals will tend to have first claim over this capacity, and later developers tend to be the projects left to mitigate impacts.

As new master plans potentially free up new capacity by relaxing congestion thresholds, it is the larger and more organized developments which will tend to be more able to proceed quickly.

With little transportation capacity remaining, smaller developments may be left with disproportionate mitigation needs (building a new lane can serve several hundred new vehicles, but the constructing developer may only need to mitigate a dozen vehicles).

UMPs are intended for each developer pays for its share of the cost of the improvements.

Why?

- Coordination
- Equity
- **Transparency**
- Time & Fiscal Savings

Transparency

A comprehensive analysis offers the potential for greater public awareness of what mitigating treatments are proposed for an area.

While each new development goes through a public process before the Planning Board, public awareness may tend to be focused only on a few select developments of interest, and interested parties may not be cognizant of transportation treatments proposed elsewhere in an area.

The analysis associated with the UMP can potentially provide a more transparent and visible sole source of information for the public to weigh in, with potential projects being identified comprehensively before the County Council rather than piecemeal before the Planning Board.

Why?

- Coordination
- Equity
- Transparency
- Time & Fiscal Savings

Time & Fiscal Savings

The UMP can reduce the number of traffic analyses which must be performed. As most of these analyses do not necessitate any treatments, this saves resources both for the private and public sectors.

This relieves developers of the need to perform intensive studies and public officials of the resources spent reviewing them, which can often involve many months of back-and-forth comments & revisions.

The centralized analysis is itself a significant undertaking, but the consolidated analysis can provide a fiscal and time savings to all parties.

The “pay and go” approach significantly reduces risk to new development by providing a clear one-time payment for an applicant, serving to streamline the development review process.

Identifying Necessary Infrastructure

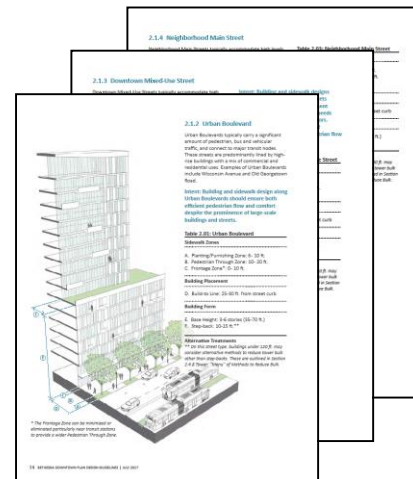

- Master Plan CIP
- Master Plan Goals
- Transportation Analysis

JULY 2016

SUBDIVISION STAGING POLICY

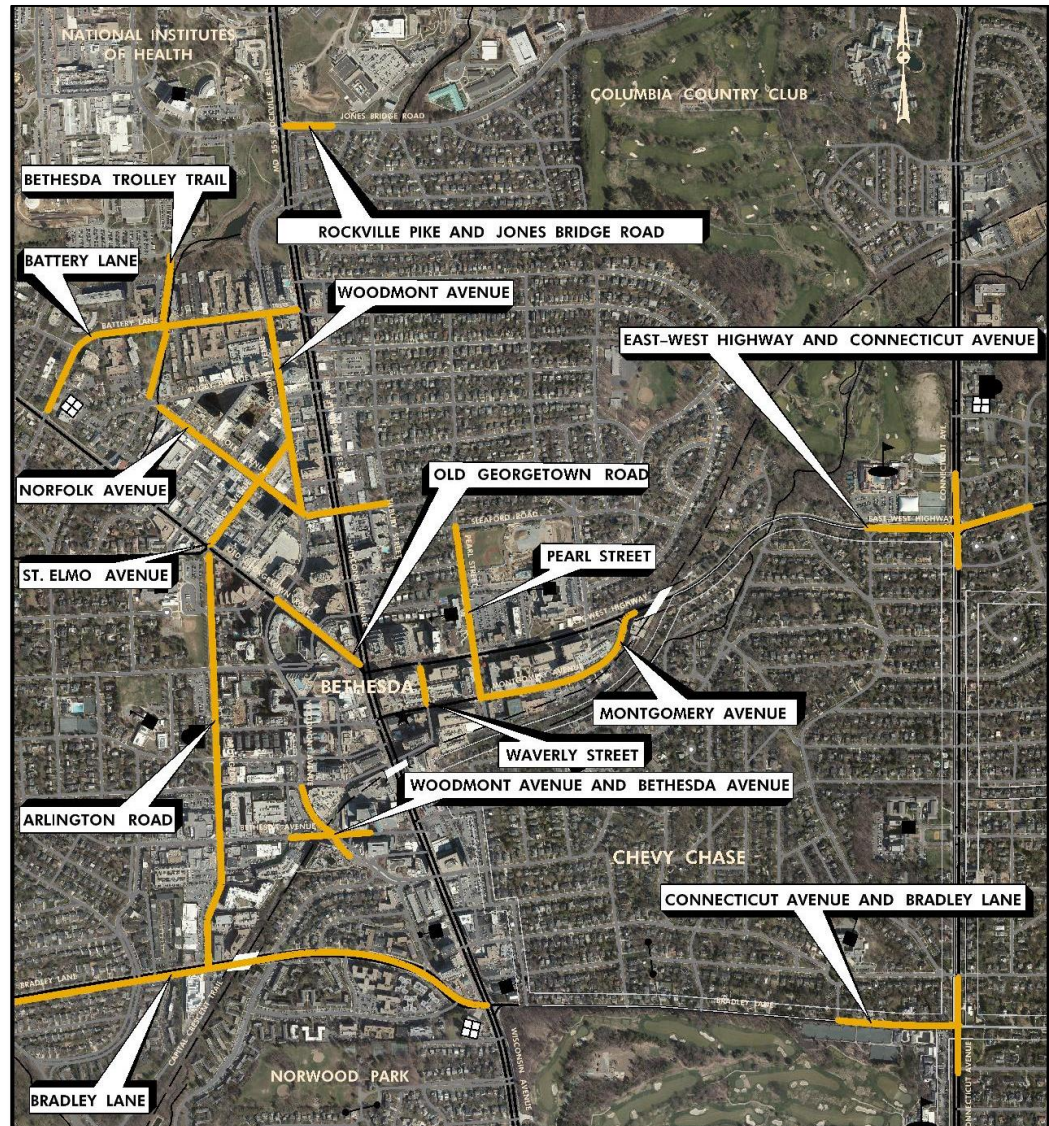

■ MARYLAND - NATIONAL CAPITAL PARK & PLANNING COMMISSION

	Phase	Start/End Date	Note
Phase 1: Initial Construction	Site Preparation & Foundation	1/15/2024 - 2/28/2024	Excavation, foundation pouring, and initial site clearing.
	Foundation & Structural Framework	3/1/2024 - 4/15/2024	Construction of the main structural frame, including walls and roof trusses.
	Roofing & Siding Installation	4/16/2024 - 5/31/2024	Installation of the roof system and exterior siding.
	Interior Partitioning & Drywall	6/1/2024 - 7/15/2024	Installation of interior walls, doors, and drywall.
	Plumbing & Electrical Rough-In	7/16/2024 - 8/31/2024	Installation of plumbing fixtures and electrical wiring.
	Insulation & HVAC System	9/1/2024 - 9/30/2024	Installation of insulation and the HVAC system.
	Final Interior Finishes	10/1/2024 - 10/31/2024	Completion of interior painting, flooring, and trim.
	Exterior Landscaping	11/1/2024 - 11/30/2024	Installation of landscaping, including lawns and shrubs.
	Final Inspection & Handover	12/1/2024 - 12/31/2024	Final inspection and handover of the completed project.
	Project Summary	1/1/2025 - 1/31/2025	Summary of project performance and client feedback.
Phase 2: Renovation & Upgrade	Demolition & Structural Assessment	1/15/2025 - 2/28/2025	Removal of existing structures and assessment of remaining foundation.
	Foundation Reinforcement	3/1/2025 - 4/15/2025	Strengthening of the foundation to support new loads.
	Roof Replacement	4/16/2025 - 5/31/2025	Complete replacement of the roof system.
	Exterior Siding Upgrade	6/1/2025 - 7/15/2025	Installation of new exterior siding materials.
	Interior Wall & Ceiling	7/16/2025 - 8/31/2025	Renovation of interior walls and ceiling.
	Plumbing & Electrical Upgrade	9/1/2025 - 9/30/2025	Upgrade of plumbing and electrical systems.
	Insulation & HVAC Upgrade	10/1/2025 - 10/31/2025	Upgrade of insulation and HVAC system.
	Final Interior Finishes	11/1/2025 - 11/30/2025	Completion of interior finishing work.
	Exterior Landscaping	12/1/2025 - 12/31/2025	Final landscaping and site cleanup.
	Project Summary	1/1/2026 - 1/31/2026	Summary of renovation project performance.
Phase 3: Final Construction & Handover	Final Inspection & Handover	1/15/2026 - 2/28/2026	Final inspection and handover of the completed project.
	Project Summary	3/1/2026 - 3/31/2026	Summary of project performance and client feedback.
	Client Satisfaction Survey	4/1/2026 - 4/30/2026	Distribution and collection of client satisfaction surveys.
	Project Closeout	5/1/2026 - 5/31/2026	Final project closeout and documentation.
	Post-Project Review	6/1/2026 - 6/30/2026	Review of project outcomes and lessons learned.
	Client Feedback Analysis	7/1/2026 - 7/31/2026	Analysis of client feedback and satisfaction.
	Project Archiving	8/1/2026 - 8/31/2026	Archiving of project files and documentation.
	Final Report Generation	9/1/2026 - 9/30/2026	Generation of the final project report.
	Project Handover	10/1/2026 - 10/31/2026	Handover of the project to the client.
	Project Summary	11/1/2026 - 11/30/2026	Summary of project performance and client feedback.

Transit

CAPITAL COSTS PER ESTIMATED RIDER

Rock Spring Park & Ride and Express Service	\$13,254	●
Greater Bethesda Micro-Transit	\$3,516	●
Extend 355 extRa to Bethesda & all-day service	\$616	●
Layhill/Wheaton Express to White Flint Red Line	\$8,199	●
Extend Metrobus 30s from Friendship Hghts to Bethesda	\$2,019	●
Howard County via US 29 FLASH Service to Purple Line	\$25,585	●
Other Ride-On Improvements (29, 32, 47)	\$32,424	●
Other Ride-On Improvements (30, 36)	\$30,398	●
Other Ride-On Improvements (34)	\$12,159	●
Olney / Aspen Hill Express to Shady Grove Red Line	\$13,025	●

Development & Estimated Fee

Intersections	\$9,084,200
ADA Compliance	\$770,000
Bikeways	\$26,337,300
Transit Vehicles	\$26,600,000
Park & Ride Expansion	\$29,750,000
<u>O&M Facility Expansion</u>	<u>\$21,000,000</u>
TOTAL	\$113,541,500

(White Oak \$101,800,000)

Development & Estimated Fee

Estimated Cost \$113,541,500

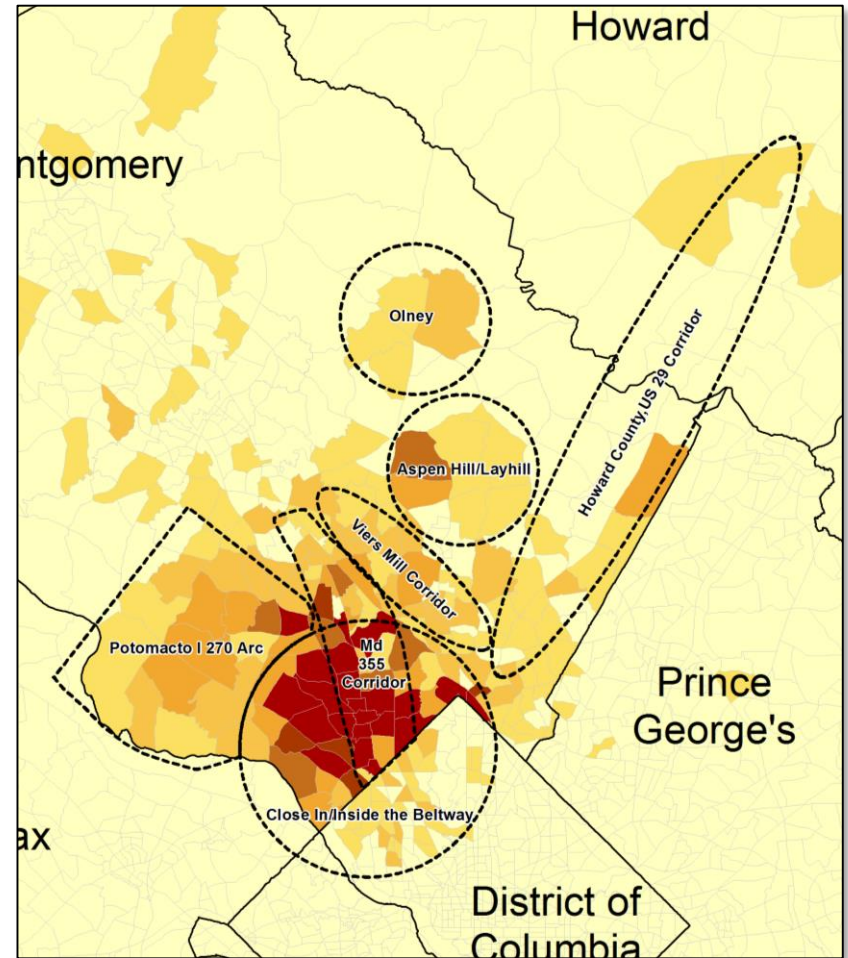

Estimated Development 8,800,000 SF

Estimated UMP Fee \$12.91/SF

White Oak Approx \$5.50/SF

Bethesda UMP Estimate does not include costs of Transit Operations, monitoring, reassessments

However, not all transit projects are necessary to achieve 55% NADMS. Doing all would achieve 62% NADMS.

Developer Obligations

- Still required to evaluate site access
- Developments outside of Policy Area are unaffected by BUMP
- May construct UMP projects for credit
- See p14 of the White Oak LATIP White Paper

<https://www.montgomerycountymd.gov/dot-dir/Resources/Files/LATR-WhitePaper.pdf>

Next Steps

- Other Presentations
- Open House, late July
- Council, late Summer-Fall

Next Steps

- We prepare technical recommendations in coordination with County Executive
- Council ultimately determines what is in or out
- Forward Funding

Questions

- Questions?
- Anything you love?
- Anything you loathe?
- Is anything missing?
- What information do you want so that you can be prepared to share input with Council?
